

The students need to know your role model number during the online event

- You will be assigned a role model number by the school.
- Your number needs to be visible to the students during the event.
- You can write your own number label, or use the ones provided here.

Print your number page and EITHER cut out the smaller number and stick it onto your clothing

OR cut out the larger number and place it where students can see it, for example, on a shelf behind you.
