

Investigation and deep dive questions brainstorm

BEFORE

This activity has been designed for you to do with your students before an Inspiring the Future event.

Why this activity is helpful for Inspiring the Future

This activity will prepare students for the online event by getting them to think about the questions they will ask the role models in the Investigation session and Deep dive.

How does it tie into the curriculum?

Values

Inquiry and curiosity, diversity, equity, community and participation

Key competencies

Thinking, using language, relating to others, participating and contributing

Learning areas

English, the arts, social sciences

Instructions

Show the students the Investigation session template and question examples, and the Deep dive question examples from the online event resources.

Talk about the questions and brainstorm what other yes/no questions students could ask the role models to work out what they do in the Investigation session, and what other open-ended questions students could ask in the Deep dive to find out more about role models' jobs.

You could even get some students to pretend to be a role model, and have the others practise on them.
